

The **PO**wer of Numbers

- “The world is built upon the power of numbers. All things can be expressed in numbers & letters – words and names – which correspond to universal vibrations.”
—*Pythagoras*.
- The Pythagoreans were fascinated by whole numbers. They defined as ***perfect numbers*** those equal to the sum of their parts (or proper divisors, including 1). For example, 6 is the smallest perfect number--the sum of its three proper divisors: 1, 2, and 3.

The created **SIX**

- Imagine that you are doing a crossword puzzle, and you are looking at a 3-letter word. You know the 1st letter as D and the last letter as G. You could then either see DOG or DIG. Similarly in reading Hebrew, especially since there are no vowels scripted on the Torah scrolls, the same SIX letters below can be heard either as ***Bereshit*** or as ***Barashit***:

בראשית | בראשית

- Be-reshit*** *Bara Elohim* means “**In the beginning**, [God created...]” and is the translation approved by tradition and communicated broadly.
- Bara-shit*** *Bara Elohim* means “[God created] the **created SIX**,” and/or “the **created SIX** [created God.]” XPR unfolds the ease and the practicality of the other very “kosher” viewpoint.

BEGIN / BEING

A beginning (as in *Bereshit*) calls forth its opposite, an end!

- Achieving replaces having fun!
- The mind flips between the fear of birth and of death.
- It never rests in the middle – the space where the body or the process can have a life!

The created SIX (as in *Barashit*) ends painful ambivalence.

- All that is needed is here already!
- The letters of **BEGIN** arrange themselves into **BEING**.
- Now creation is layered within creation, omni-present!

Isn't it funny that in English the same 5 letters of **BEGIN / BEING** transmit exactly the 6-letter word translated as *in the beginning or the created SIX*?

ALL Divinely Ordered!

- The **created SIX** are a full-proof system that covers all orders of existence. In the table below, you'll recognize the foundation *and the calling* of such Divine Order:
 - The SIX archetypes of you “falling” **IN-LOVE**: **IN** is for **IN**génue (agenda-less), **L** for **L**eader, **O** for **O**fficer, **V** for **V**isionary, **E** for **E**ngineer.
 - The SIX elements that are the synergy of the main cosmologies:
 - Western cosmology: **Fire**, **Earth**, **Air**, **Water**.
 - Chinese cosmology: **Wood**, **Fire**, **Earth**, **Metal**, **Water**.
 - Hindu cosmology: **Ether**, **Fire**, **Earth**, **Air**, **Water**.
 - The SIX instruments of divine reception/transmission; the **IN**génue's **Spirit** is as natural as a **Tree**, and her **Voice**, as sublime as **Ether**. The **L**eader's **heart** is as passionate as **Fire**; the **O**fficer's **Body**, as grounded as **Earth**; the **E**ngineer's **mind** is as light /sharp as **Air/Metal**; the **V**isionary's **Soul**, as fluid and deep as **Water**.

Being **IN-LOVE**

- The created SIX are the resolution of creation myths and their subsequent organizing into elements. They are the missing link between DNA and divinity. How so?
- The created SIX as archetypes are the fulfillment of psychology and of sciences of human development, who have attempted to come up with a 4-base typology.
- Such square system is very potent as it comes directly from the geOMetry of the **LOVE** of the Sacred Tetragrammaton, the **YEWE**. Just as **YEWE** is supported by the purity of the *ELOhim*, the 4-base system cannot work on its own as it does not allow the transcendence enacted through the pair of archetypes—a Sacred Marriage called “**Green & Black INgénues**” on the Path of XPR.
- The **INgénue** pair brings unconditional purity (and PAIRfection) as *ingénue* means “without agenda” and thus “**in** their **genius**,” blossoming into the very uniqueness, the very fragrance they are meant to contribute to existence.
- Meaning what they say and saying what they mean, their acronym as **IN-LOVE** is the language of sustained bliss. The practicality of their interaction is fully retrieved while journeying on the Path of XPR, either via XPR LOVE QKode or via XPR D101.

Purity of Motion/Emotion

Here are the SIX archetypes of you, as pure as snow, “falling” **IN-LOVE** and in total integriTREE.
